

New Hampshire 2021 National Pediatric Readiness State Summary

2021 Pediatric Readiness Response Rate

Numerator: **25**
 Denominator: **28**
 Response Rate: **89%**

2013-14 Pediatric Readiness Response Rate

Numerator: **26**
 Denominator: **26**
 Response Rate: **100%**

2021 Average State Score

70

State AVERAGE Hospital
 Score out of 100
 (n=25)

2021 Median State Score

68

State MEDIAN Hospital
 Score out of 100
 (n=25)

The overall 2021 National Pediatric Readiness scores (based on the 2018 Joint Policy Guidelines) are not directly comparable with the 2013-14 state scores (based on the 2009 Joint Policy Guidelines). These were two unique assessments based on two different published sets of guidelines. Questions were added/removed and point values changed based on the new guidelines. Although the overall scores are not comparable, several individual questions remained the same and these components can be compared over time.

Average Scores By Section

Section	Missing Records	Avg Section Score	Possible Score
Guidelines for Administration and Coordination of the ED for the Care of Children (19 pts)	0	8.0	19
Physicians, Nurses, and Other Health Care Providers Who Staff the ED (10 pts)	0	5.8	10
Guidelines QI/PI in the ED (7 pts)	0	2.6	7
Guidelines for Improving Pediatric Patient Safety in the ED (14 pts)	0	12.8	14
Guidelines for Policies, Procedures, and Protocols for the ED (17 pts)	0	9.3	17
Guidelines for Equipment, Supplies, and Medications for the Care of Pediatric Patients in the ED (33 pts)	0	31.9	33

NOTE: If there are missing values from any of the assessments (specifically from PDF assessments), they are shown in the "Missing Records" column. This indicates records that were missing scored questions and could not be included in the calculation of the average section score.

Analysis of Scored Questions in the Assessment by Section

The following analysis is grouped by the six main sections of the assessment. Each section has an average score shown on page 2. Under the section headings are the lists for each of the scored questions in that section along with a comparison between the previous 2013-14 assessment (if applicable) and the most recent national assessment.

If a question has been added since the original 2013-14 national assessment **you will see a blank in the "2013-14 Percent that Had Item,"** indicating that question was not available during the previous assessment.

The KPI (Key Performance Indicator) is shown in the legend on your right in colors and shapes. These symbols are not punitive, rather an indicator of performance **to help you quickly identify areas for quality improvement** based on the 2021 results. Collaborate with stakeholders in your state/territory to identify areas to work on first.

The importance of having each of these items can be found in the "Importance Statements" document: <https://www.pedsready.org/docs/NPRP%20Gap%20Report%20Importance%20Statements.pdf>.

NOTE: Please note that the bigger the difference in response rates between the two assessment periods (see page 1), the more difficult it is to use this report for an accurate assessment of change over time.

KPI Legend:

-  100% of EDs Have Item
-  80 to 99.9% Have Item
-  60 to 79.9% Have Item
-  30 to 59.9% Have Item
-  29.9% or Less Have Item

Guidelines for Administration and Coordination of the ED for the Care of Children (19 points)

	KPI	2021 Number of EDs that Have Item	2021 Percent that Have Item	2013-14 Percent that Had Item	Difference Between Assessments
Physician Coordinator		8/25 (Missing = 0)	32.0%	46.2%	-14.2% ▼
Nurse Coordinator		13/25 (Missing = 0)	52.0%	46.2%	5.8% ▲

Physicians, Nurses, and Other Health Care Providers Who Staff the ED (10 points)

Physician Competency Evaluations		21/25 (Missing = 0)	84.0%	46.2%	37.8% ▲
Physician Maintenance of Board Certification		13/25 (Missing = 0)	52.0%		
Nurse Competency Evaluations		23/25 (Missing = 0)	92.0%	69.2%	22.8% ▲
Nurse Maintenance of Specialty Certification		1/25 (Missing = 0)	4.0%		

Guidelines QI/PI in the ED (7 points)

	KPI	2021 Number of EDs that Have Item	2021 Percent that Have Item	2013-14 Percent that Had Item	Difference Between Assessments
Patient care-review process (chart review)		11/25 (Missing = 0)	44.0%	65.4%	-21.4% ▼
Identification of quality indicators for children		9/25 (Missing = 0)	36.0%	34.6%	1.4% ▲
Collection and analysis of pediatric emergency care data		10/25 (Missing = 0)	40.0%	57.7%	-17.7% ▼
Development of a plan for improvement in pediatric emergency care		9/25 (Missing = 0)	36.0%	50.0%	-14.0% ▼
Re-evaluation of performance using outcomes-based measures		7/25 (Missing = 0)	28.0%	50.0%	-22.0% ▼

Guidelines for Improving Pediatric Patient Safety in the ED (14 points)

Children seen in the ED weighed in kilograms (without conversion from pounds)		22/25 (Missing = 0)	88.0%	76.9%	11.1% ▲
Children's weights recorded in the ED medical record in kilograms only		23/25 (Missing = 0)	92.0%		
Temperature, heart rate, and respiratory rate recorded		24/25 (Missing = 0)	96.0%	96.2%	-0.2% ▼
Blood pressure monitoring available based on severity of illness		25/25 (Missing = 0)	100.0%	100.0%	0.0%
Pulse oximetry monitoring available based on severity of illness		25/25 (Missing = 0)	100.0%	100.0%	0.0%
End tidal CO2 monitoring available based on severity of illness		24/25 (Missing = 0)	96.0%		
Process in place for notification (manual or automated) of physicians when abnormal vital signs are found		23/25 (Missing = 0)	92.0%	57.7%	34.3% ▲

Guidelines for Improving Pediatric Patient Safety in the ED (14 points)

	KPI	2021 Number of EDs that Have Item	2021 Percent that Have Item	2013-14 Percent that Had Item	Difference Between Assessments
Process in place for the use of pre-calculated drug dosing in all children		21/25 (Missing = 0)	84.0%	80.8%	3.2% ▲
Process in place that allows for 24/7 access to interpreter services in the ED		25/25 (Missing = 0)	100.0%	100.0%	0.0%
Level of consciousness (e.g. AVPU or GCS) assessed in all children		20/25 (Missing = 0)	80.0%		
Level of pain assessed in all children		24/25 (Missing = 0)	96.0%		

Guidelines for Policies, Procedures, and Protocols for the ED (17 points)

Triage policy that specifically addresses ill and injured children		14/25 (Missing = 0)	56.0%	57.7%	-1.7% ▼
Policy for pediatric patient assessment and reassessment		18/25 (Missing = 0)	72.0%	57.7%	14.3% ▲
Policy for immunization assessment and management of the under-immunized child		7/25 (Missing = 0)	28.0%	38.5%	-10.5% ▼
Policy for child maltreatment		22/25 (Missing = 0)	88.0%	96.2%	-8.2% ▼
Policy for death of the child in the ED		14/25 (Missing = 0)	56.0%	57.7%	-1.7% ▼
Policy for reduced-dose radiation for CT and x-ray imaging based on pediatric age or weight		16/25 (Missing = 0)	64.0%	73.1%	-9.1% ▼
Policy for behavioral health issues for children of all ages		17/25 (Missing = 0)	68.0%		
Involving families and caregivers in patient care decision-making		12/25 (Missing = 0)	48.0%		

Guidelines for Policies, Procedures, and Protocols for the ED (17 points)

	KPI	2021 Number of EDs that Have Item	2021 Percent that Have Item	2013-14 Percent that Had Item	Difference Between Assessments
Involving families and caregivers in medication safety processes		8/25 (Missing = 0)	32.0%		
Family and guardian presence during all aspects of emergency care, including resuscitation		11/25 (Missing = 0)	44.0%		
Education of the patient, family, and caregivers on treatment plan and disposition		12/25 (Missing = 0)	48.0%		
Bereavement counseling		7/25 (Missing = 0)	28.0%		
Disaster plan includes availability of medications, vaccines, equipment, supplies, and appropriately trained providers		5/25 (Missing = 0)	20.0%		
Disaster plan includes decontamination, isolation, and quarantine of families and children		7/25 (Missing = 0)	28.0%		
Disaster plan includes minimization of parent-child separation and methods for reuniting separated children with their families		6/25 (Missing = 0)	24.0%		
All disaster drills include pediatric patients		5/25 (Missing = 0)	20.0%		
Disaster plan includes pediatric surge capacity for both injured and non-injured children		7/25 (Missing = 0)	28.0%		
Disaster plan includes access to behavioral health resources for children		7/25 (Missing = 0)	28.0%		
Disaster plan includes care of children with special health care needs		6/25 (Missing = 0)	24.0%		
Written inter-facility transfer guidelines		16/25 (Missing = 0)	64.0%	80.8%	-16.8% ▼

Guidelines for Equipment, Supplies, and Medications for the Care of Pediatric Patients in the ED (33 points)

	KPI	2021 Number of EDs that Have Item	2021 Percent that Have Item	2013-14 Percent that Had Item	Difference Between Assessments
All staff trained on the location of all pediatric equipment and medications		25/25 (Missing = 0)	100.0%	100.0%	0.0%
Daily method used to verify the proper location and function of pediatric equipment and supplies		22/25 (Missing = 0)	88.0%	88.5%	-0.5% ▼
Standardized chart or tool to estimate weight if resuscitation precludes the use of a weight scale (e.g., length-based tape)		25/25 (Missing = 0)	100.0%	100.0%	0.0%
Neonatal blood pressure cuff		23/25 (Missing = 0)	92.0%	100.0%	-8.0% ▼
Infant blood pressure cuff		25/25 (Missing = 0)	100.0%	100.0%	0.0%
Child blood pressure cuff		25/25 (Missing = 0)	100.0%	100.0%	0.0%
Defibrillator with pediatric and adult capabilities including pads and or paddles		25/25 (Missing = 0)	100.0%	100.0%	0.0%
Pulse oximeter with pediatric and adult probes		25/25 (Missing = 0)	100.0%	100.0%	0.0%
Continuous end-tidal CO2 monitoring device		25/25 (Missing = 0)	100.0%	100.0%	0.0%
22 gauge catheter-over-the-needle		25/25 (Missing = 0)	100.0%	100.0%	0.0%
24 gauge catheter-over-the-needle		25/25 (Missing = 0)	100.0%	100.0%	0.0%
Pediatric intra-osseus needles		25/25 (Missing = 0)	100.0%	100.0%	0.0%
IV administration sets with calibrated chambers or an infusion pump		25/25 (Missing = 0)	100.0%	100.0%	0.0%
